THE HORSELESS CARRIAGE CLUB OF AMERICA

The Horseless Carriage Club of America is a nonprofit international association of people dedicated to the enjoyment, study and preservation of early automobiles manufactured prior to 1916.

The club was organized in 1937 by a group of horseless carriage enthusiasts who foresaw the need for an organization dedicated to the preservation of automotive history. From this beginning the Horseless Carriage Club of America has grown to include members from all parts of the United States, Canada, Europe and other parts of the world. www.hcca.org

Anniversary Gala

**President's Message:**

I was pleased to see the large number of members and guests that turned out for the NCRG's 70th

Anniversary Gala at the Aerospace Museum of California in McClellan Park. A big thank you goes to the Gala Committee members, Stephanie Mozell, Leta Nichols and Cindy Pharis, for the super job they did planning the Gala, obtaining the pleasant and interesting venue, coordinating with the caterer, arranging for the musician and providing the decorations. I also want to express my appreciation to Gordon McGregor for speaking to the group about the Club's history following our meal, to Sue Hill for providing photo albums and an antique purse display, to California Catering for the excellent hors d'oeuvres and meal, and to the members and guests for attending.

Good news: the NCRG dues will not increase for next year! The Board of Director's met on October 22 and voted to keep the dues, as well as *The Brass Nuts* subscription and advertising rates the same as this year's rates.

70 YEARS

On October 6, 2019, the Northern California Regional Group members and their guests gathered to celebrate the 70th anniversary of the chartering of the group by the Horseless Carriage Club of America. There were fifty-six people in attendance. Those in attendance enjoyed the camaraderie, dinner, music, and exhibits at the Aerospace Museum of California, and the sharing of memories of the club's activities and members.

Our Master of Ceremonies was NCRG President, Bill Charpier. Gordon McGregor shared stories of club members, touring, and his appreciation of being in a club filled with members who have always been willing to step up to help keep the club running, organize tours, and care for its members. The committee, Cindy Pharis, Stephanie Mozell, and Leta Nichols, did an outstanding job of organizing the gala, thus providing a memorable afternoon in celebration of 70 years of our love of antique cars. Sue Hill contributed a display of beaded purses and some of our historical artifacts with scrapbooks of past club activities and old copies of our newsletter, *The Brass Nuts*. Bill brought the framed NCRG-HCCA charter.

Fire Truck Restoration Fundraiser (Raises over \$5,000)

Members from NCRG-HCCA were there to support the fundraising effort, to have fun and enjoy a delicious meal. We were successful on all counts.

We enjoyed the Keystone Kops who locked folks in jail. And, helped raise \$\$.

Even the speaker, County Supervisor, Sue Frost, was locked up and had to give her speech from the jail cell (an interesting venue).

However, the Fire Chief wasn't locked up until after his talk.

Several of our members won raffles prizes or won the bid in the auction. (Sandy Sanders a long time friend of Sue Hill and Roger Mitchell, won the grand prize of a 55" television!)

What's your bid on this matched set?

Winner of Grand Prize ➡

A BIG THANKS goes to Roger Mitchell for his efforts to make this a successful event.

There were horseless carriages displayed at the Sacramento Auto Show. It was a wonderful opportunity to show our cars, educate the public and publicize our club. Thanks go to Ed Rose for organizing our participation at the event and for Matt Ryan (1915 Model T Speedster) Ed and Elaine Rose (1914 Model T) Raul Cornejo (1923 Depot Hack), Carole and Jim Snow (1915 Elgin), Gordon McGregor, (1908 Rambler, 1914 Overland, and 1922 Nash) and Frank and Diana Squire (1924 Dodge Brothers Touring Car) for bringing their cars for the display. The Roses, Snows, Squires, and Raul Cornejo took turns manning the display and answering as many questions as possible.

Ironstone Concours d'Elegance 2019

By Bill Charpier

September 28th of this year was the date of the 23rd annual *Ironstone Concours d'Elegance* located at Ironstone Vineyards in Murphys. As with previous years, this event showcases vintage and classic automobiles and other vehicles including vintage trucks, race cars, trailers, house cars and motorcycles, restored and unrestored. The event is also noted for donating the proceeds to promote and support local Future Farmers of America and 4-H youth activities.

With over 300 vehicles showing in 30 classes there was something to see for everyone. As with previous years, there were classes designated for featured vehicle marques. One of them was for Hudson and Jim Ryan displayed his 1915 Hudson Touring car.

Also spotted among the many vehicles was a 1914 Ford Model T Touring car owned by NCRG members Dave and Janice Hill. For several years a small group of Amphicar owners have displayed their amphibious vehicles produced between 1961 and 1965, and for a donation they gave visitors rides around the lake situated on the grounds of Ironstone Vineyards. Among the many interesting cars on display was a 1933 Cadillac All Weather Phaeton. This car was ordered new by Al Jolson, and it was Cadillac's most expensive model for 1933. The Best of Show this year went to a beautiful 1930 Duesenberg.

Although rain was predicted, it held off until late in the evening allowing everyone to have pleasant weather to view the vehicles starting in the morning and lasting through the parade of winners in the afternoon. We heard many positive comments about the event, and we certainly enjoyed ourselves.

Automotive History

November 26, 1836 John McAdam dies of a heart attack. He was born in 1756 in Scotland but moved to New York in 1790. While there he became a successful merchant, made his fortune and then returned to Scotland. He became a road trustee and was concerned with the condition of the roads. In 1802 he moved to England where he became a Commissioner of Paving (1806).

He is the inventor of the macadam road surface. McAdam discovered that the best stone or gravel for road surfacing had to be broken or crushed, and then graded to a constant size of chippings. **McAdam's** design, called "**MacAdam** roads" and then simply "**macadam** roads," represented a revolutionary advancement in road construction at the time. Workers broke the stones into 6 ounce pieces or to pass a 2 inch ring. They relied on road traffic to compact the road. Later they used a cast iron roller.

Additionally, he designed the raised roadbed to facilitate drainage of water off the roads. The water-bound macadam roads were the forerunners of the tar- and bitumen-based binding that was to become tarmac. The word tarmac was shortened to the now-familiar name: tarmac.

The first macadam road built in the United States was constructed between Hagerstown and Boonsboro, Maryland and was named at the time Boonsborough Turnpike. (1823)

Reminder: Let's Update our Auto-Biography Binders

For the Northern California Regional Group's 40th Birthday Gala, a commemorative binder was developed with many members contributing their Auto-Biography to be shared amongst all members. We are now celebrating our 70th year and would like your assistance in updating those binders. About half of our members do not have an Auto-biography. Additionally, many years have passed since those initial biographies were written. Our goal is to get biographies from every one of our members or member families—even if it's simply a picture and a short paragraph.

Please help us by writing your Auto-biography. Include information about:

- You, your family, occupations, hobbies, interests
- How you became interested in old cars and what other clubs you belong to
- Information about the cars you have owned or currently own
- A favorite car story.

Please include 2-3 pictures along with your biography. At least one should be a picture of you so people can "see" and get to know our faces.

You can send or give your completed biography and pictures to: Diana Squire,

If you would prefer to be interviewed or have any questions, please call Diana.

In Memoriam
Ray Hren

Our heartfelt condolences go out to the family of Ray Hren as Ray passed away in his sleep on October 30, 2019. Ray and his wife of 66 years, Wilma, have been members of the NCRG-HCCA on and off since joining NCRG in the early 1980s when Gordon McGregor introduced them to the Horseless Carriage Club scene. However, when they moved to Chicago Park, near Grass Valley, they left our group to join the Gold Country Regional Group. They continued to maintain the friendships they made with our group and continued to tour with NCRG members on regional tours in California, Oregon and Nevada. They moved to Sun City West, Arizona in 2018.

Ray had been an owner of a variety of 1930s cars but when he joined our club he became an owner of a 1913 Rambler and later a 1915 Model T. His latest listing of cars owned includes a 1926 Ford Model T 4-door Sedan, as well as several 1930s cars and a 1960 Nash Metropolitan convertible.

In 1972 or 1973, Ray helped form the NorCal Region of the then new Nash Car Club of America. When he lived in Granite Bay he had a shop built where he could work on and store his cars. In the late 1980s, he decided that he wanted to build a house in Chicago Park and did so, taking only eighteen months to finish the job.

He has been a long time close friend of the McGregors and the Ryans and many other members of the club.

He will be missed by all.

No service is planned.
